Position: COURIER
 Name: DAVE QUINN
 Location: LEICESTERSHIRE

“Get £100 in your pocket not £72 !”

My story is a little bit more complicated than most. In 2005 I started my own business as a courier mainly working for one of the largest transport operations in the UK.

I bought a van and all the other bits and pieces to start my business and operated for just over a year before it all became too much for me. I gave up and went back to being employed...

Fast forward now to 2008 and after moving house and completely forgetting about tax, I received an assessment for tax for several thousand pounds. The letters from HMRC got more frequent and the fees quoted and the figures got larger. I had been quoted by a couple of local accountants and the fees quoted were equally huge and unaffordable.

I came across Mr Tax CD around about the same time and with the help of my wife who is much more clued up than I was, we set about preparing our accounts and tax returns for 2005/2006 and 2006/2007.

MrTax CD provided two valuable pieces of advice:-

1. How to construct your accounts when with the passage of time some receipts had gone missing
2. where to find the information that you need.

Luckily I had all my bank statements, which was a great starting point. I could calculate my earnings and most of my expenses. With the advice from Mr Tax CD, I managed to calculate that business mileage was better for me to claim than my motor expenses. I also followed all the advice on use of home, laundry claiming for tools – all things I was hardly aware of.

Following all the tips I completed both tax years and then opted to use the Mr Tax CD tax return service to check my work and file my returns. Much to my relief, I owed just a fraction of what HMRC had assessed and now I know that tax is something not to ignore.

I am now back self employed and all I can say is that I am so impressed with the MrTax CD that I have recommended it to all my colleagues such as Paul Holland.

You can either chose to completely ignore tax and then it will all get a little bit frightening and stressful or you can meet it head on. It's **YOUR** money you are dealing with and **every £100 you do not rightfully claim leaves you with just £72 in your pocket.**

Don't be short-changed by the taxman or even an accountant.

Take control of your own finances. Get MrTax CD, you will not regret it.
